

The birch pendant is a delightful design using the tactile beauty of clay. We love the idea of using this material as a lightshade, it is easy to sit back and enjoy this wonderful object. The story behind the design is our admiration for the similar bark patterns of the North American white birch tree and the Australian hoop-pine tree. The lamp is hand-turned and cut by a Queensland based master potter.

Birch

INDOOR | SMALL | PENDANT

DIMENSIONS

250mm dia or 400mm H
